Due to the official retraction of the August 2009 article entitled “Identification of Phosphorylated p38 as a Novel DAPK-Interacting Partner during TNFα-Induced Apoptosis in Colorectal Tumor Cells” (volume 175, pages 557–570; http://dx.doi.org/10.2353/ajpath.2009.080853) and the March 2013 article “Death-Associated Protein Kinase Controls STAT3 Activity in Intestinal Epithelial Cells” (volume 182, pages 1005–1020; http://dx.doi.org/10.1016/j.ajpath.2012.11.026) the previously published corrections on these articles (volume 185, page 2861; http://dx.doi.org/10.1016/j.ajpath.2015.05.022 and volume 186, page 1710; http://dx.doi.org/10.1016/j.ajpath.2016.02.019) are no longer applicable. As these correction records contain updates for other unrelated articles, they cannot be fully retracted, however the information pertaining to the aforementioned retracted articles should no longer be under reader consideration.
