Figure S2. Tie2Cre$^+$/Ppp2ca$^{+/+}$ and Tie2Cre$^+$/Ppp2ca$^{f/+}$ fetal livers had similar PP2Ac protein contents and PP2A phosphatase activity. (A) PP2Ac protein levels in E12.5 fetal livers were determined using an antibody detecting both PP2Ac$\alpha$ and PP2Ac$\beta$. (B) PP2A phosphatase activity of E12.5 fetal livers was measured.
