Supplemental Figure 1. GC formation and Foxp3+ Treg cells in gastric TLOs of CCR7-/- mice. Stomach sections were stained for (A) GC with PNA (in red) and (B) for Foxp3+ Treg cells (in brown) and B220+ B cells (in blue). Representative photos are shown. The arrows show the GC or Foxp3+ Treg cells. Scale bar, 200 μm.
