Supplemental Figure S3. (A) Schema showing magnetic bead selection of DC-SIGN\textsuperscript{+} and DC-SIGN\textsuperscript{-} cells from decidual mononuclear cells (MNC). (B) Flow cytometric analysis of the starting population of CD4\textsuperscript{+}CD25\textsuperscript{-} responder T cells. (C) Sample flow cytometric analysis showing expression of Helios by Foxp3\textsuperscript{+} cells induced by APCs from preeclamptic patients.
