A number of counted mast cells

% degranulated mast cells

Vehicle PACAP$_{1-38}$ (100 nM)

Vehicle PACAP$_{1-38}$ (100 nM)
Supplemental Figure 3. PACAP does not alter number and degranulation status of dermal mast cells. (A) Total number of dermal mast cells as quantified from Giemsa-stained human skin organ culture samples. (B) Degranulation status in percentage of total number of mast cells.
